

SPRINT 3 PLAN

Product: HomeMe

Sprint Completion Date: 06/02/2017

Revision Date: 5/17/2017

Goal:

To clean up the aesthetics of this project, implement a communication system, and fix currently buggy systems.

User stories:

User story 1: As a user, I would like to share contact information with landlords.

User story 2: As a user, I would like to see a property listing grid with pictures (Craigslist-style).

User story 3: As a user, I would like to see that everything looks good and is not buggy.

Task Listing:

- User story 1:
 - a. Implement apply button (of some sort) to pre-populate email text fields
- User story 2:
 - a. Build a grid of hyperlinks to listings (maybe use Bootstrap)?
 - b. Attach pictures to each listing, clicking pic serves as link
 - c. Maybe do some fancy special effect where picture gets big when your mouse hovers over it
- User story 3:
 - a. Navbar is displayed across all pages
 - b. Delete web2py header and footer
 - c. Make stuff *FANCY*
 - i. Make sure the first page everyone sees is the splash page
 - ii. Pages so far: edit, index, profile, splash, about us, search

Team Roles:

Hanlin Chen: Full-stack developer

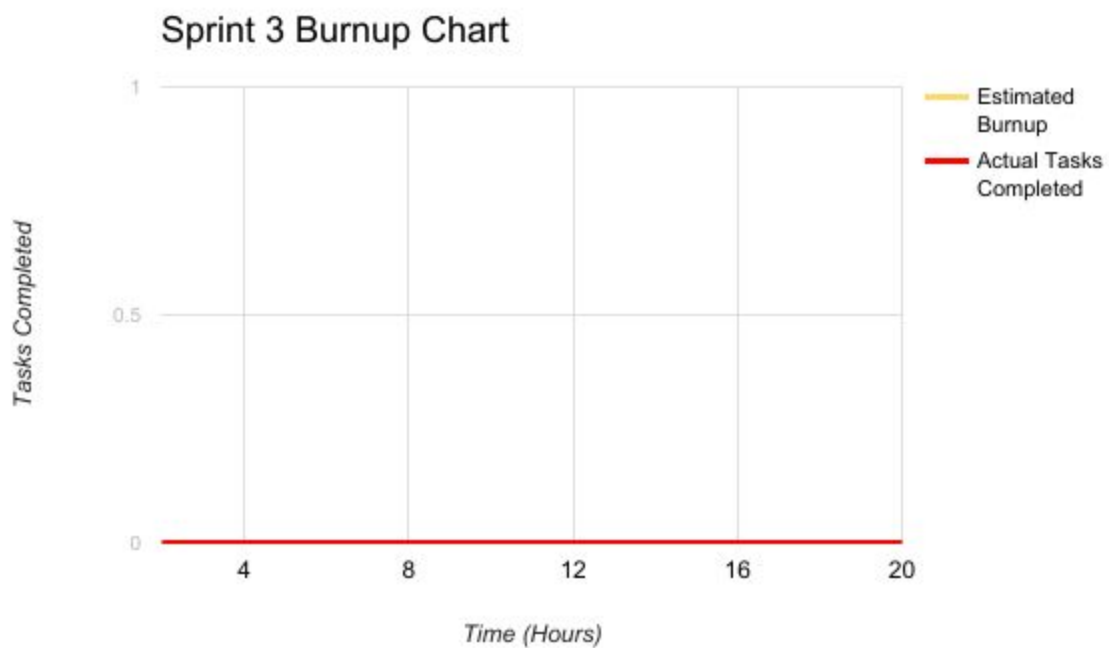

Leslie Lau: Product owner, Front-end developer

Josh Sibayan: Front-end developer
Soham Saha: Back-end developer
Andrew Johnson: Scrum master, Back-end developer

Initial Task Assignment (<Story#><Task>):
